PROFESSIONAL SUMMARY

Final-year Computer Science student (Software Engineering) with hands-on experience in full-stack web development, gained through one and a half years experiences as junior web developer. Comfortable across PHP/Laravel, JavaScript/React/Next.js, and Python/Django. Quick to learn new tools and frameworks, and looking for an internship or junior developer role where I can keep growing while contributing to real production systems.

TECHNICAL SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, PHP, Laravel, React, Next.js, Astro.js, Python, Django, Java, C#, C++

Frontend / Styling: Bootstrap, Tailwind CSS, Alpine.js, Livewire, Zustand

Database: MySQL, PostgreSQL

Familiar with: React ecosystem tools, Laravel Filament (admin panels)

Open to learning: Any additional language, framework, or tool required on the job

WORK EXPERIENCE

Junior Full-Stack Developer

Aug 2023 – Apr 2024

OmegaZero Technology Company Limited

- Contributed to Omega POS System — employee management, salary calculation, and product tracking (HTML, CSS, JavaScript, Bootstrap, Laravel, Vue.js).
- Supported Omega CRM System development, building UI components and backend features (Tailwind CSS, Laravel, jQuery).
- Collaborated on the LinBlock concert company website, covering product pricing and customer-facing pages (Astro.js, Laravel Filament).
- Built attendance tracking (present/absent/leave/overtime) and automated salary calculation for GreatSafe Payroll System (Laravel Filament).
- Helped build the MTF (Myanmar Tennis Federation) court booking platform, covering reservations, coaching bookings, and payments (Next.js, Laravel Filament).
- Maintained and optimized existing POS and CRM systems while contributing to multiple new client projects.

PERSONAL PROJECTS

Anime Music Translation — Website to discover, enjoy, and request translated anime music videos. *Stack: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL*

HiChat — Real-time chat application for instant communication between users. *Stack: HTML, CSS, JavaScript, Tailwind, Alpine.js, Laravel, Livewire, MySQL*
